PEDIATRIC CARDIOLOGIST
Montgomery, Alabama

We seek a non-invasive BC/BE Pediatric Cardiologist to join Pediatric Specialists of Montgomery, a respected private practice in Montgomery, Alabama. The practice is 90% office based and 10% NICU and inpatient consulting. Patients are followed from birth to college. The practice is affiliated with two Baptist hospitals with large, well-staffed NICUs. Both hospitals have EMR. EMR is planned for the practice.

The practice is located in a spacious new building in a rapidly growing area near one of the hospitals and has in-house echo and stress test, Holter and Event Monitoring capability. Office hours are 7:30 – 4:00. Staff is in place to support two busy physicians.

Montgomery has a strong economy, low cost of living, vibrant arts community, minor league baseball team, excellent housing choices, public magnet schools and excellent private schools, and multiple colleges including Auburn University Montgomery.

The ideal candidate will be committed to practicing quality community medicine, have excellent relationship skills, a strong work ethic, and a collegial attitude toward physicians, office and hospital staff. He/she will be interested in becoming an integral part of this dynamic growing community. Interest in Fetal Echoes or TEE will be a plus. Excellent compensation & benefits are offered.

Interventional Catheterization

The Division of Pediatric Cardiology at the University of Utah School of Medicine is recruiting a pediatric cardiologist at the Assistant or Associate Professor level with a major interest in interventional catheterization. The candidate must have advanced training and/or experience in interventional catheterization. Our division is very busy clinically and academically productive with all subspecialty areas represented. In 2004, we performed approximately 650 catheterization procedures including a full spectrum of interventions. We expect to open 2 brand new cath labs in 2007 ensuring the continued growth of our interventional program. Opportunities exist for wide ranging clinical and bench-top collaboration both locally and nationally within both academics and industry.

In addition to expertise in interventional catheterization, applicants should have a sound clinical background in all areas of Pediatric Cardiology. The current division staff is composed of individuals with significant professional experience and expertise. There will be protected time for clinical research, with mentoring available within the division for clinical research studies. The division has a very active clinical research program and is one of the participating centers in the Pediatric Heart Disease Clinical Research Network funded by the NIH.

The successful candidate will receive a faculty appointment at the University of Utah. The pediatric cardiology division is based at Primary Children’s Medical Center, a tertiary referral center for a three state area, which is located on the hills overlooking Salt Lake City. The area offers an excellent quality of life with immense cultural and recreational opportunities close and available. The University of Utah is an Equal Opportunity Employer and welcomes applications from minorities and women and provides reasonable accommodations to the known disabilities of applicants and employees.

Interested individuals should contact: Robert E. Shaddy, Professor of Pediatrics, Division Chief of Pediatric Cardiology, University of Utah School of Medicine, 100 North Medical Drive, Salt Lake City, Utah 84113. E-mail: robert.shaddy@ihc.com
The Divisions of Pediatric Cardiology and Pediatric Critical Care Medicine at the University of Arkansas for Medical Sciences College of Medicine solicit applications for a clinical fellowship in Pediatric Cardiac Intensive Care for the academic year 2006-2007 and 2007-08. This training is available for a period of 6-12 months to individuals who are BC/BE in either Pediatric Cardiology or Pediatric Critical Care Medicine. All clinical activities will take place at the Arkansas Children’s Hospital Heart Center. Care is provided in a 15 - Pediatric Cardiac Intensive Care Unit 24/7 by a dedicated and highly specialized team of intensivists, cardiologists, cardiac surgeons, cardiac anesthesiologists, advanced nurse practitioners, nurses and allied health professionals. The Cardiac Intensive Care Unit admits approximately 600 patients per year. The pediatric and congenital cardiovascular surgery team led by Dr Robert DB Jaquiss performs approximately 550 congenital heart surgeries yearly with approximately one half being cardiopulmonary bypass cases. The program has a very strong neonatal cardiac surgery, heart transplant, ventricular assist device and mechanical support focus. Arkansas Children’s Hospital maintains a very busy ECMO program, with one of the Nation’s only mobile ECMO programs, and provides formal training in ECMO support of cardiac patients. The fellows will also have the opportunity of working closely with dedicated pediatric cardiac anesthesiologists during their training. The hospital also houses the Donald W. Reynolds Pediatric Intensive Care Unit, a state-of-the-art 26-bed facility which receives approximately 1100 admissions annually, where the fellow will receive training in lung-protective ventilator strategies and support of multi-organ dysfunction.

The program presents a very conducive environment for clinical training in various aspects of care of critically ill children with congenital heart disease. In general, this position will entail approximately 85% clinical time and 15% time for clinical research. There are numerous research opportunities and the fellow is encouraged to carry out meaningful clinical research during the course of the fellowship. The clinical training and responsibilities will be tailored for the individual candidate, depending on prior fellowship experience (i.e. Critical Care or Cardiology) and personal interests.

Clinical fellows will be appointed to the Department of Pediatrics, UAMS at the Instructor level in a non-tenure track position with faculty benefits including health and liability insurance. Applicants accepted for this clinical fellowship will be required to obtain an Arkansas medical license prior to starting training. The University of Arkansas Medical Sciences is an Equal Opportunity Employer. Little Rock, the capital of Arkansas is a warm and friendly cosmopolitan community with affordable housing, is well connected to other parts of the country and offers an abundance of recreational activities.
