SPECIAL RECRUITMENT EDITION

FOCUS ON RECRUITMENT IN PEDIATRIC AND CONGENITAL CARDIOLOGY

*By Tony Carlson, Founder, and
Richard Koulbanis, Publisher &
Editor-in-Chief*

Congenital Cardiology Today and W.L. Gore & Associates are delighted to provide this Special Recruitment Issue to help pediatric and congenital cardiology and cardiac surgery programs and practices expand and /or fill vacancies.

Congenital Cardiology Today has regular monthly recruitment advertisements. This Special Recruitment Issue, sponsored by WL Gore & Associates, features many of the positions which are currently being offered by hospitals, Universities, Medical Schools, and private practices worldwide. Hopefully, all, who are looking, will find this Special Recruitment Issue helpful.

Several trends in congenital cardiology have made finding employment or employees more complicated in recent years. First, the absolute

numbers of physicians, surgeons, and ancillary practitioners has increased significantly. This increase reflects increased needs for services caused by increasing population and by patient survival. Part of this trend is an increased number of graduating pediatric cardiology fellows. Second, there has been increasing specialization in the ranks of professionals. In addition to the traditional "pediatric cardiologist," we now have interventional cardiologists, echocardiographers, imaging specialists, electrophysiologists, transplant cardiologists, adult congenital cardiologists, etc. Most sophisticated programs need one or more representative from each discipline. Third, the congenital cardiology community has become a world community with many professionals practicing across national borders who are interested and willing to accept training and employment outside the boundaries of their home countries. As a result, "finding a

job" or "filling a position" is no longer adequately accomplished by the chief or division head calling a few old friends.

"Congenital Cardiology Today and W.L. Gore & Associates are delighted to provide this Special Recruitment Issue to help pediatric and congenital cardiology and cardiac surgery programs and practices expand and /or fill vacancies."

Congenital Cardiology Today, established September 2003, is the only worldwide monthly newsletter for the congenital cardiology community that provides timely information on

GENERAL PEDIATRIC CARDIOLOGY

The Children's Heart Clinic, located in the Twin Cities, a private practice combined pediatric cardiology and pediatric cardiac surgery specialty program. We are a group of 9 board certified pediatric cardiologists and 2 board certified pediatric cardiothoracic surgeons. Our large outpatient practice includes more than 9000 visits and over 8500 echocardiograms and interpretations. We have two full time sites and multiple community outreach locations. This outpatient program also includes fetal echocardiograms, lipid clinic, MRI/CT diagnostics, an Adult Congenital Heart Disease Program, state of the art Cath Lab facility at Children's Hospitals and Clinics of Minnesota-Minneapolis (adjacent to one of our offices) and arrhythmia center. The cardiac surgery program performs over 425 surgical procedures each year at Children's Hospitals and Clinics of Minnesota-Minneapolis. Procedures include the Norwood, Arterial Switch, Fontan, Ross, AV Canal Repair, ECMO and ECMO transportation.

The qualified candidates must be BE/BC in Pediatric Cardiology. Submit letter of interest and CV to:

Denise Zang, Practice Administrator
The Children's Heart Clinic
2545 Chicago Avenue South
Suite 106
Minneapolis, MN 55404
dzang@chc-pa.org

Clinical Fellowships

Greenlane Paediatric & Congenital Cardiac Service at Starship Children's Hospital, Auckland District Health Board is the national provider for Paediatric Cardiology and Cardiac Surgery in New Zealand.

There are two positions for one year, fixed term, Clinical Fellowships in Paediatric Cardiology commencing in December 2007 and January 2008. One of these is for a more senior trainee. There is provision for a second year's appointment by mutual agreement.

Both positions offer an opportunity for specialised training in Paediatric Cardiology and will also involve clinical research within the department.

For further enquiries please contact: Sally Adams on sallya@adhb.govt.nz

To apply, please visit www.aucklandhealthcareers.co.nz and submit an online application quoting reference number 012799

Pediatric Cardiology

We are looking for a non-invasive Pediatric Cardiologist for the Orlando Florida area. Established in 1994, we serve the Central Florida area with outpatient clinics, inpatient consults, fetal echo's and cardiac catheterizations.

Competitive salary and benefits, including paid health, disability, malpractice insurance and CME allowances.

Come enjoy Florida with its beautiful beaches, lakes, great outdoor activities, and many cultural and sporting events. The Orlando area boasts 'A' schools and a prominent local University.

For a glimpse into our practice visit our website at:
www.carson-appleton.com

Please contact: Thomas Carson, M.D. for more details on this great opportunity via email at:
redvet@aol.com or our office at 407-902-2866.

Submit your CV via fax to:
407-902-2585.

Chief of Pediatric Cardiology

The Department of Pediatrics at the University of Wisconsin-Madison School of Medicine and Public Health is recruiting for a chief of Pediatric Cardiology at the Associate or Professor level.

Qualified individuals should be board certified in pediatric cardiology and possess experience in administration, mentorship, program development and management. The new American Family Children's Hospital is opening in August 2007.

Please send CV to:

Ellen R. Wald, M.D.
Professor and Chair
Department of Pediatrics
University of Wisconsin-Madison
Box 4108
600 Highland Ave.
Madison, WI 53792-4108

Fax: (608) 265-3397

E-mail: erwald@wisc.edu

Unless confidentiality is requested in writing, information regarding the applicants must be released upon request.

Finalists cannot be guaranteed confidentiality.

The University of Wisconsin is an equal Opportunity/Affirmative Action employer. Women and members of minority groups are encouraged to apply.

Attention Pediatric Cardiology Fellows

Just finishing your fellowship and looking for a great job opportunity?

We are looking for a non-invasive Pediatric Cardiologist (BC/BE) with experience in Pediatric and Fetal Echocardiology to join our established pediatric cardiology private practice group. We have offices located in the suburbs of a major metropolitan area located in the Midwest.

This position offers the opportunity to admit and manage your own patients in a large pediatric cardiology center with participation in weekly cardiovascular conferences among cardiac surgeons, pediatric interventionists and pediatric cardiologists.

Competitive salary and benefits with potential growth to achieve above average levels of financial compensation.

If you are interested, please email your CV to: PC1@CCT.bz

Seeking BC/BE Pediatric Cardiologist

Sanford Children's Specialty Clinic, a multispecialty pediatric clinic, is seeking a BC/BE Pediatric Cardiologist to add depth to the existing program. Qualified candidates would join two other Pediatric Cardiologists. Sanford Children's Specialty clinic is a well-established, full range practice. This very busy and growing practice is particularly interested in physicians who share their philosophy to establish strong relationships with the patients, their families and relate well to referring physicians and colleagues.

Sanford Children's Hospital broke ground May 2007 with the Hospital opening its doors in 2009. This new facility will greatly expand pediatric services, both medical and surgical. This facility will be the first and only children's hospital in the state of South Dakota. www.sanfordhealth.org

Compensation, vacation time and lifestyle are very generous and comprise a worthwhile package in a stable environment with considerable hospital and community support. This opportunity is best suited for strong clinicians who want to maintain an academic interest and aid in the development of regional pediatric services.

To learn more please contact:

Lisa Vognild
Physician Placement Associate at
(605) 328-6994 or 1-866-312-3907.

You can also email Lisa at vognildl@sanfordhealth.org.

Director of the Pediatric Heart Transplant/Heart Failure Program

The Division of Pediatric Cardiology at the University of Utah School of Medicine is recruiting a pediatric cardiologist as Director of the Pediatric Heart Transplant/Heart Failure Program.

Requires: a strong clinical pediatric cardiology background with expertise in children with heart failure and those awaiting and undergoing heart transplantation; additional training in pediatric heart transplantation and heart failure; experience in treating patients with acute and chronic heart failure and preoperative management of patients with heart failure awaiting heart transplantation, with particular expertise in immunologic issues related to pre- and post-transplant care.

Based at Primary Children's Medical Center, tertiary referral center for a three-state area located on the hills overlooking Salt Lake City. A 16-member Division with one pediatric cardiologist and one pediatrician involved with the Heart Transplant Program.

Contact:

Dr. Lloyd Y Tani
Professor of Pediatrics
Division Chief of Pediatric Cardiology
University of Utah School of Medicine at (801) 662-5400

The University of Utah is an Equal Opportunity Employer and welcomes applications from minorities and women.

Asheville Cardiology Associates Recruiting BC/BE Pediatric Non-Invasive Cardiologist For Summer 2007

Known for clinical excellence, Asheville Cardiology Associates is seeking a third pediatric cardiologist with advanced skills in both inpatient and outpatient arenas. Those with expertise in new modality imaging, adult-congenital cardiology, or interest in exercise physiology or electrophysiology, are encouraged to contact us. Development of new programs within the practice is encouraged.

The Peds Division has a complex patient base, with active fetal and adult-congenital programs. Outpatient practice encounters ~3,000 clinic visits, ~2,000 echoes per year, with a growth rate of 5-7% annually. Inpatient is performed at Mission Hospitals, consistently rated in Top 100 Heart Hospitals in last six years. Its new children's outpatient facility is well represented by subspecialists and ancillary services.

Asheville is a beautiful city of 70,000 (county has 200,000 plus MSA of 391,000). Located in the Blue Ridge Mts. of North Carolina, it offers excellent public and private schools, universities and colleges. Amenities such as great restaurants, arts, music, & theater put it on the list of best places to live in many publications. A mild four season climate gives opportunities for mountain biking, hiking, camping, fishing, golf, whitewater activities and skiing.

Visit our website, www.avlcard.com for more information.

All inquiries remain confidential.

kathleen.kyer@hcahealthcare.com**

Adult Congenital Heart Disease Specialist

The Division of Pediatric Cardiology of Sanger Clinic and Levine Children's Hospital in Charlotte, NC is recruiting an adult congenital heart disease (ACHD) specialist to help direct a busy and growing service. The successful applicant should be board certified/eligible in pediatric cardiology and preferably have completed a specialty fellowship in ACHD. The successful applicant will join a rapidly growing practice of seven pediatric cardiologists and two cardio thoracic surgeons. The Sanger Clinic also has a large and busy adult cardiology practice with several adult cardiologists involved in the ACHD service. The candidate should have excellent interpersonal skills and ideally an interest/expertise in imaging, particularly magnetic resonance imaging.

The Sanger Clinic is the largest congenital heart center in North Carolina performing three hundred surgeries and three hundred cardiac catheterizations per year. The practice is affiliated with Carolinas Healthcare System, the fourth largest hospital authority in the country, but operates much like a private practice with very competitive compensation and benefits. The hospital authority is poised to open Levine Children's Hospital in the fall of 2007, an eighty-five million dollar state-of-the-art facility. Interested applicants should fax or e-mail their CVs to Dr. Stern.

Herbert J. Stern, MD, FACC
Director, Division of Pediatric Cardiology
Sanger Clinic and Carolinas Heart Institute

The Department of Pediatrics at the University of Texas-Houston Medical School/ Children's Memorial Hermann Hospital is seeking to recruit mid- to senior-level candidates to fill the following positions to meet the needs of this rapidly growing program:

- **Associate Director, Division of Pediatric Cardiology**
- **Director, Pediatric Echocardiography Laboratory**
- **An Interventional Pediatric Cardiologist to be Director, Pediatric Cardiac Cath Lab**
- **Two Pediatric Cardiac Intensivists, one to serve as Director of Pedi Card ICU**

The applicants must be licensed physicians, board-certified/eligible in Pediatrics and Pediatric Cardiology. This is an opportunity to join six board-certified pediatric cardiologists in an expanding pediatric cardiology program. There are already well-established fetal cardiology and interventional pediatric cardiology programs in place and EP program is due to start soon. The Pediatric Cardiology Division provides care in the new State-of-the-art, Children's Memorial Hermann Hospital located in the world-renowned Texas Medical Center. The Children's Memorial Hermann Hospital is a 168 bed tertiary care hospital, with a 96 bed neonatal unit and a 14 bed PICU. The positions provide ample opportunity for teaching and research.

The Department of Pediatrics has 85 full-time faculty members and is ranked among the top 20 pediatric departments in NIH-sponsored research support. Houston is the fourth largest city in the country, and is very cosmopolitan. The salary and benefits will be generous, and will exceed the norms for the area.

Submit CV and letter of inquiry to:

P. Syamasundar Rao, MD, Professor and Director
 Division of Pediatric Cardiology
 UT-Houston Medical School
 6431 Fannin
 MSB 3.132
 Houston, TX 77030
 Phone: 713-500-5738; Fax: 713-500-5751
 e-mail: P.Syamasundar.Rao@uth.tmc.edu

The positions will remain open until filled.

The University of Texas Health Science Center at Houston is an EO/AA employer, M/F/D/V. These are security sensitive positions and thereby subject to Texas Education Code § 51.215. A background check will be required for the final candidates. Women and minorities are encouraged to apply.

CARDIOLOGISTS WANTED

The Children's Heart Center at the Children's Hospital of New Jersey's is the state's largest and most comprehensive center for medical and surgical management of childhood heart disease. Cardiologists with the following interests are encouraged to explore employment opportunities with the Center that include leadership positions in each of the following subspecialty areas:

- Cardiac intensive care
- Heart failure and transplantation
- Electrophysiology and pacing

The Center's full-time staff includes cardiologists with expertise in all subspecialty areas of pediatric cardiology, two full-time pediatric cardiothoracic surgeons, three pediatric cardiovascular anesthesiologists, and several specialized nurse practitioners.

We offer one of the region's best compensation packages along with excellent employment benefits. The medical center is located just minutes from Manhattan and within a short drive to the Jersey shore.

To learn more about the Children's Heart Center please visit our web site at www.sbhcs.com/childcardiac.

Interested candidates should contact Dr. Joel T. Hardin, Director of Cardiology, at (973) 926-3500 or via email to: jhardin@sbhcs.com.

Saint Barnabas Health Care System is an Equal Opportunity Employer.

**ADVANCED
ECHOCARDIOGRAPHY AND
PEDIATRIC CARDIAC
CRITICAL CARE FACULTY**

Wake Forest University Health Sciences (WFUHS) announces 2 faculty positions (open rank) for Pediatric Cardiologists with expertise in advanced echocardiography and pediatric cardiac critical care. Experienced candidates will be considered for the positions of Director of Cardiac Critical Care or Echo Lab Director. These full time academic positions involve teaching of medical students and house staff at Wake Forest University. Compensation is based on academic rank and experience. Protected time is available for research. WFUHS is a member of the Pediatric Heart Network, and in that capacity participates in NIH sponsored clinical trials.

The Pediatric Cardiology program is housed in the Brenner Children's Hospital, a \$130 million tower completed in 2003. The latest equipment, attractive and functional facilities and talented nurses and sonographers assure excellent working conditions.

WFUHS, located in Winston-Salem, NC, is in the foothills of the Blue Ridge Mountains and an easy drive to the ocean. The area is rich in cultural, educational and sports activities with a vibrant economy.

Interested candidates may inquire or apply by e-mail or letter to:
wcovitz@wfubmc.edu

PEDIATRIC CARDIOLOGIST

To enhance an expanding program, the Division of Pediatric Cardiology at the Medical College of Wisconsin and Children's Hospital of Wisconsin is recruiting board-certified/board eligible pediatric cardiologists to join a dynamic practice of **12 pediatric cardiologists and 3 cardiovascular surgeons**. Children's Hospital of Wisconsin is in the process of a major facility expansion, and pediatric cardiology and critical care fellowship training programs are currently in place. Academic cardiologists are being recruited at the assistant or associate level in the following roles:

The **interventional candidate** will serve in the largest congenital program in Wisconsin performing more than 450 catheterizations per year with two additional catheterization labs planned. Expertise in hemodynamics, angiography, and skills and experience in interventional techniques required.

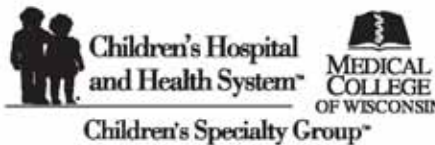

The **intensive care candidate** will assist with management of more than 650 operative procedures annually. A new 24-bed pediatric cardiac ICU is under construction. Expertise in preoperative and postoperative hemodynamics, pharmacology with skills in intensive care technical procedures and assist device management required.

The **candidate for electrophysiology** should have expertise in invasive and non-invasive electrophysiology and skills and expertise in diagnosis and management of complex arrhythmias including catheter-based intervention/ablation.

The **candidate for non-invasive imaging** will join a busy clinical practice with opportunities for research and career development; the department has developed a NIH-funded pediatric echo research lab with 2 research staff and 2 dedicated myocardial deformation/2-D and 3-D imaging review stations. Expertise in transthoracic and transesophageal echocardiography; interest in fetal echocardiography and cardiac MRI and CT desirable.

The Medical College of Wisconsin offers a competitive compensation/benefits package. Interested applicants should fax or E-mail CVs to:

Stuart Berger, M.D.
Director, Division of Pediatric Cardiology
Medical College of Wisconsin
sberger@chw.org
Fax# 414-266-3261

PEDIATRIC CARDIOLOGIST

The Children's Heart Center in El Paso, Texas is seeking a BC/BE pediatric cardiologist to join a very busy, well-established solo private practice with a three to four month waiting list. Preference will be given to a non-invasive cardiologist, but all candidates will be considered.

The practice is located next to the Children's Hospital at Providence, a 197-bed facility which is the only children's hospital in the area. El Paso is a rapidly-growing, friendly, multi-cultural city with a low cost of living and a population of about 750,000. The weather is outstanding with over 300 sunny days per year. We will be moving to a 4,000 square foot brand new facility in the near future. We also have a state-of-the-art electronic medical record system.

We can offer a generous package, including a more than competitive salary, plus full benefits, vacation and CME.

We encourage minority applicants; fluency in Spanish is a plus.

Informal inquiries are welcome.

Director of Pediatric Cardiovascular Critical Care

Major Medical Center in Dallas seeks a Pediatric Cardiovascular Critical Care Director. Preferred candidate will possess a charismatic personality, leadership attributes with evidenced experience, strong clinical skill set for a complex patient population and board certification in Pediatric Cardiology and Critical Care. Candidates with board certification in one discipline and solid experience in the alternate subspecialty should also apply. The incoming Director will serve as the Medical Director of the existing 10 bed Pediatric Cardiovascular ICU and the new, state-of-the-art unit due for completion in late 2008. Additional responsibility includes coordinating a collegial collaboration with pediatric cardiology physicians/subspecialists and nursing staff. Incoming physician will be provided an outstanding financial package and the opportunity to advance their medical and/or research career.

The Congenital Heart Surgery program performs more than 300 surgeries each year. Two thirds of the surgeries are pump cases. The program provides care to neonates (approximately 30%) and children under 2 yrs of age (approximately 70%).

A team of nine pediatric intensivists and eleven pediatric cardiologists cover the congenital heart surgery unit. A dedicated 10-bed pediatric cardiovascular intensive care unit opened in 2004. Construction has begun on a newer unit with a completion date in late 2008.

The program participates extensively in research initiatives and i-Rounds, a web based informatics system allowing second to second tracking of clinical data and shares information with outside referring physicians. The center employs all of the latest technologies for monitoring patients and performing point of care testing. The Medical Center operates a very busy research entity in which the Pediatric Cardiovascular Surgery Director, actively participates.

Golisano Children's Hospital at Strong Division of Pediatric Cardiology

Golisano Children's Hospital at Strong is the teaching hospital of the University of Rochester School of Medicine and Dentistry. As the area's regional referral center for pediatric heart surgery, additional faculty are needed for our increasing referral population.

Pediatric Cardiologist

We are seeking a board certified/ board eligible non-interventional pediatric cardiologist. Opportunities are available for patient care in many areas including exercise testing, echocardiography, congenital heart disease in adults, and preventive cardiology. An interest in clinical and/or basic research is encouraged.

Staff Electrophysiologist

We are seeking to recruit a pediatric cardiologist with fellowship training in cardiac electrophysiology. The candidate should have training and experience in all aspects of clinical electrophysiology including ablation, pacemakers, defibrillators, and biventricular devices. The successful candidate will establish an interventional pediatric E-P program. An interest in clinical and/or basic research is encouraged.

Interested applicants should forward letter of intent, curriculum vitae, and three references to:

Winston E. Gaum, MD
Division Chief, Pediatric Cardiology
Golisano Children's Hospital at Strong
601 Elmwood Avenue
Box 631
Rochester, NY 14642

Pediatric Cardiology

The Division of Pediatric Cardiology at Loyola's Ronald McDonald Children's Hospital is expanding and has an immediate opening for a 4th BE/BC pediatric cardiologist at the assistant or associate professor level. The position requires strong clinical skills in general pediatric cardiology. Subspecialty interest or training is preferable but not required. The position is for approximately 40% outpatient and 60% inpatient duties with emphasis on echocardiography, fetal echo, TEE, etc., as well as other non-invasive procedures. The cardiology division is a growing academic program with a growing cardiac surgical program. The current faculty includes cardiac critical care as well as interventional expertise. Electrophysiology and RF ablation procedures are done on site in a dedicated EP lab that is among the busiest in the region. Faculty will also have important roles in pediatric student and resident education and are encouraged to conduct research.

Based in the western suburbs of Chicago, Loyola University Health System is a quaternary care system with a 72-acre main medical center campus and 17 off-site facilities in Cook, Will, and DuPage counties. Loyola's Ronald McDonald® Children's Hospital is a "hospital-within-a-hospital" and is comprised of a busy pediatric inpatient and outpatient service, 14 bed istate of the art pediatric intensive care unit, and 50 neonatal intensive care beds. The hospital is staffed by a full complement of pediatric subspecialty services and a 50-member residency and fellowship program.

The Stritch School of Medicine has research institutes in neuroscience, cardiovascular, oncology, burn/shock/trauma and bioethics and health policy. Housed in the John & Herta Cuneo Center, Stritch occupies 110,000 square feet of state-of-the-art classrooms, basic research labs and clinical research areas. More than 500 medical students and 500 residents are taught by more than 1,200 full and part time salaried faculty.

Please send CV's to: Peter Varga, MD, Director of Pediatric Cardiology, Department of Pediatrics, Loyola University Medical Center, 2160 South First Ave., Maywood, IL 60153.

The Loyola University Health System is an affirmative action/equal opportunity educator and employer. The University undertakes affirmative action to assure equal employment opportunity for underrepresented minorities, women, and persons with disabilities.

**PEDIATRIC CARDIOLOGIST
WANTED**

The Children's Heart Group at the Penn State Children's Hospital is seeking two pediatric cardiologists to join our growing cardiovascular program. The Children's Heart Group provides pediatric cardiovascular care throughout picturesque, central Pennsylvania. Expertise in echocardiography, cardiovascular wellness, and general outpatient pediatric cardiology (including administration of a busy outpatient service) would be an ideal fit for one of these positions. There are excellent opportunities for advancement in academic pursuits such as education and research. The Penn State artificial organs program, for example, is one of five programs, nationally, that has received funding for the development of a pediatric ventricular assist device. In addition, the Penn State College of Medicine has a vibrant K-30 program that affords junior faculty the opportunity to advance their knowledge in epidemiology and clinical research. These positions will afford qualified individuals with appropriate protected time in the research arena. Full and part-time opportunities exist. Those interested should forward their curriculum vitae to:

Stephen E. Cyran, M.D.
Chief, Division of Pediatric Cardiology
Penn State College of Medicine
Children's Heart Group
P.O. Box 850
Hershey, PA 17033

Phone: 717-531-8107
Fax: 717-531-0401
E-mail: scyran@psu.edu

**MASSACHUSETTS
GENERAL HOSPITAL
PEDIATRIC
CARDIOLOGIST**

MassGeneral Hospital for Children at the Massachusetts General Hospital in Boston is searching for Pediatric Cardiologists to participate in the expansion of the Congenital Heart Disease Program in the Department of Pediatrics and the MGH Heart Center. The physician will work to further the clinical, research and teaching activities related to pediatric cardiology, and as such, is eligible for a Harvard Medical School appointment. The ideal candidate will be board-certified in Pediatrics and sub board certified or eligible in Pediatric Cardiology. Specific interest in cardiac intensive care, electrophysiology, echocardiography or adult CHD is highly desirable. MGH is an equal opportunity/affirmative action employer. Women and minorities are encouraged to apply.

Interested candidates should submit a letter of application and curriculum vitae to:

Michael de Moor, MD, FACC,
FSCAI
Chief of Pediatric Cardiology
MassGeneral Hospital for Children
CRP-S 510
175 Cambridge Street
Boston, MA 02114

email: mdemoor@partners.org

Tel: 617-726-3826
Fax: 617-726-2049

EOE

**PEDIATRIC CARDIOLOGIST
Tacoma, WA**

Due to continued growth we are seeking a 4th BC/BE pediatric cardiologist to join our well-established practice. The ideal candidate will either be fellowship trained in EP or a generalist. The practice provides both invasive and noninvasive cardiology services, including stress testing and assessment and care of children with lipid disorders. The primary office is adjacent to the Children's Hospital which has a pediatric cardiovascular surgical program and neonatal and pediatric intensive care units. The group currently performs approximately 100 interventional cases a year and is expanding the fetal echocardiography program. Competitive income and outstanding benefits including health, disability and liability insurances, stock purchase program, 401(k), and CME allowance. The region provides ready access to skiing, fishing, boating, and other outdoor activities in the beautiful environs of the Cascade Mountains and the Puget Sound. The community has excellent schools, restaurants, and cultural events, and housing remains affordable.

For more information contact:

Lori Abolafia
Pediatrix Medical Group
1301 Concord Terrace
Sunrise, FL 33323

**PEDIATRIC CARDIOLOGIST
Phoenix, AZ**

We are seeking two BE/BC pediatric cardiologists for our 15-member group practice. One position is for a non-invasive cardiologist focusing in echocardiography. Shared responsibilities with our five echocardiographers include interpreting more than 14,000 echocardiograms, 700 plus fetal echocardiograms, and 750 transesophageal echocardiograms annually. Second position is for a generalist to provide outpatient services in one of our community-based offices. Recognized as the primary pediatric cardiology group at Phoenix Children's Hospital, we provide all inpatient cardiology care, including transthoracic and transesophageal echocardiography, catheter interventions, electrophysiology/RFA, and MRI procedures. We view our practice as unique, providing our practitioners with cutting-edge technology and academic affiliation in a private practice setting. Phoenix provides an exciting lifestyle with numerous cultural and sports events, plus family-oriented communities, excellent school districts and unlimited activities for children. Near to the mountains and the California coast. Competitive salary, excellent benefits, professional liability insurance, CME allowance, comprehensive health/life benefits, stock purchase plan and 401(k).

For more information, contact: Lori Abolafia, Pediatrix Medical Group, 1301 Concord Terrace, Sunrise, FL 33323, (800) 243-3839 ext. 5209

Pediatric Cardiology Opportunity Albany, N.Y.

The Department of Pediatrics at Albany Medical College is seeking a fifth cardiologist with a projected start date of 7/1/2008. This position is offered at the assistant or associate professor level, in the Section of Pediatric Cardiology at Albany Medical Center - the tertiary care center for 28 counties and 2.3 million people surrounding the State Capitol of Albany, N.Y.

Candidates should be BC/BE in pediatrics (or medicine/pediatrics) and pediatric cardiology. Proficiency in all aspects of clinical and non-invasive diagnosis and general cardiac management is required. Special expertise in adult congenital heart

disease and/or cardiac arrhythmias would be desirable. Responsibilities also include teaching of medical students, residents and postgraduate students, and post-operative care for patients in our very active and excellent surgical program.

If interested, please send or e-mail your current curriculum vitae and bibliography to:

Eric Spooner, M.D.
Chief, Section of Pediatric Cardiology
319 South Manning Blvd.
Suite 203
Albany, NY 12208

PEDIATRIC CARDIAC SONOGRAPHERS NEEDED PHOENIX, ARIZONA

The Heart and Lung Institute at St. Joseph's Hospital and Medical Center in Phoenix, Arizona (500 W Thomas Rd, Suite 500, Phoenix, AZ 85013) has positions for pediatric cardiac sonographers and one lead sonographer to work with a new rapidly expanding group of full-time academically-driven pediatric cardiologists, cardiac intensivists, and cardiac surgeons.

We see an extensive spectrum of congenital and acquired heart defects. The Echo Lab performs all aspects of ultrasound imaging – TTE, TEE, fetal, ICE, and stress. Sonographers work five 8-hour-day week. Typical salary is \$34-\$42/hr depending on experience and RDMS/RDCS certification plus benefits and generous stipend for carrying the on-call pager and when called.

We are Arizona's ONLY hospital to be voted Best Place to Work in the Valley for FOUR years in a row and our 690-bed teaching and research facility is now the largest hospital in the State. We have been named once again as top hospital by Ranking Arizona Magazine and nationally recognized by U.S. News and World Report.

If interested, please call or e-mail your biodata to:
